## Professional Summary

---

An experienced and highly motivated frontend developer who has a strong passion for learning and building websites that provide a great user experience

## Education

---

**Bachelor's degree, Systems/Software Engineering**  
Fundación Universitaria Luis Amigo

Jan 2016 - Dec 2020

## Experience

---

### Freelance

Jan 2022 - Current

Frontend Software Engineer

- Engineered scalable, responsive, multi-platform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, JavaScript ES6+ and React best practises
- Communicated business requirements with stakeholders and delivered high quality solutions
- Connected to backend API's through CRUD HTTP requests

### Java Developer

Jun 2017 – May 2021

Software Engineer

- Took user requirements to then think, design, and implement functionality to complete them
- Updated the UI and UX of the app by changing the UI component framework from RichFaces to PrimeFaces
- Created a functionality that allowed students to be able to look and sign up for internships

## Commercial Projects

---

### E-Portfolio

<https://johngarciava.github.io/eportfolio-clt/>

- Designed, developed and hosted my client's e-portfolio using semantic HTML5 and CSS3 (+BEM) best practises
- Provided support for search engine optimisation for higher indexing through Google's search engine crawler
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform and device

### Fundación Universitaria Luis Amigo's information system

<https://academia.funlam.edu.co/uenlinea/index.jsf>

- Worked on this in-house built software for 4 years that manages an information system for a university that has 15,000 students and 600 staff, building several individual functionalities, improving on existing ones, and fulfilling many user requirements

- Improved website performance by refactoring existing code
